

## LABOR MAY HALT OCEANIC BOATS IN AUSTRALIA

A serious situation confronts the Oceanic Steamship Company as well as other lines now making a terminal at Sydney, N. S. W., and other ports in the Australian commonwealth, in being brought face to face with a threatened strike, that is predicted will prove general throughout the country.

The federated trades have practically come out with the declaration that their members will not be permitted to perform any overtime work, either at night or on holidays, and this is believed to spell disaster to any attempt to dispatch steamers from Sydney on existing schedules. Insisted an officer in the Oceanic liner Sonoma this morning.

"Take for instance this vessel, the Sonoma, remains at Sydney for but five days. It is believed a physical impossibility to discharge a full cargo of American merchandise and supplies and load a big return cargo in that length of time unless much overtime is permitted in dealing with the longshoremen. To take this privilege away through an arbitrary ruling, will mean that the length of stay at the Australian port must be materially extended."

Before the difficulty is settled a general revision of steamer schedules in the Oceanic line may follow.

### Contrary Winds Delayed Schooner.

Contrary winds were assigned as a cause of a delay in arrival of the lumber laden schooner Helene, now at the port and being discharged of a shipment of lumber to the order of Allen and Robinson. Captain Lempe states that in departing from the Sound he brought up within a few miles of Golden Gate in less than 11 days. In crossing the Pacific to the islands his command was in the way of strong gales and heavy seas.

### Garden Islander Due Tomorrow.

A big delegation of visitors to the Mid-Pacific Carnival from the Garden Island is due to reach the port tomorrow as passengers in the inter-island steamer Kinai, which is to arrive a day ahead of the regular schedule. The Kinai is reported to bring a full cargo of sugar and other lines of island products. The vessel will be dispatched at the usual hour on next Tuesday.

### Noenu Makes Port Today.

The inter-island steamer Noenu made port today bringing cargo only from Kauai including 1500 sacks of sugar, 500 sacks of paddy, a mill roller, a number of head of sheep, 20 sacks of rice and a quantity of sundries. Officers in this vessel stated that good weather was met on the outward and homeward trip.

### Ecclesia Away for Australia Today.

The British freighter Ecclesia is to be dispatched for Australian ports this afternoon according to the present plans of the inter-island to which company the vessel and cargo of 5000 tons of coal was consigned. The discharge of the fuel has been completed. The Ecclesia may be given a mail destined for the southern continent.

### El Secundo En Route.

According to a report reaching here, the El Secundo, one of the freight steamers of the Pacific Steamship Company, newly organized, will arrive here soon. She is reported to have left Portland for this city on the first trip here of a vessel of that company, February 15. It is expected that she will return by the way of San Francisco.

### Pacific Mailers Next Week.

Two Pacific Mail steamers of the intermediate type are expected to visit the port during the coming week. The Nile from San Francisco to call for coal and taking on additional passengers for the Orient due to reach a berth at pier 7 on Monday.

The Persia from the Orient has 450 tons of freight for discharge here. This steamer may arrive here on the afternoon of Feb. 27.

### Steamer Has Much Coal.

According to cables received here today the British freighter Harpalice reported to have sailed from Newcastle, N. S. W., for Honolulu was supplied with 6300 tons of coal consigned to the inter-island Steam Navigation Company. The vessel should reach destination about March 12.

### La Palma Not Damaged.

The damage to the yacht La Palma through a blaze that occurred on board the craft last night, is today declared as but nominal. A portion of the engine room will be repaired. The fire occurred while a new engine was being tested, the blaze sweeping through the vessel threatening destruction to the superstructure. Engineer McLean turned in an alarm from Pier 7 and a delegation of firemen were soon on the scene.

### TIDES—SUN AND MOON

Date	High Tide	Low Tide	High Tide	Low Tide	High Tide	Low Tide	High Tide	Low Tide
Feb. 16	10.00	1.5	6.10	1.31	8.27	6.00	8.00	1.30
17	11.30	1.7	7.40	1.50	9.57	6.25	6.00	0.31
18	12.50	1.9	8.50	1.69	11.27	6.50	6.00	1.30
19	1.35	2.1	9.50	1.88	12.57	6.75	6.00	2.30
20	1.15	1.9	1.00	1.67	1.27	6.50	6.00	3.30
21	1.55	1.9	1.50	1.46	2.57	6.25	6.00	4.30
22	2.35	1.9	2.40	1.25	4.27	6.00	6.00	5.30

Last quarter of the moon Feb. 16.

## HARBOR NOTES

In sailing from Hana for the coast the schooner Defender left in ballast. The Defender has been discharged of a shipment of lumber.

The British freighter Harpalice is expected to bring 5000 tons of Australian coal. This vessel should reach the port about March 15.

The Canadian-Australasian liner Niagara is believed will arrive at Honolulu from British Columbia on next Wednesday with a large delegation of passengers.

No reason has been assigned for the delay of the British steamer Maragon from Sydney by the way of Auckland and Suva. The vessel is now expected here on next Wednesday.

In departing from Hilo for San Francisco, the Matson Navigation steamer Hyades, was supplied with a full cargo of sugar. The vessel called at Honolulu, Kahului, Kaanapali and Port Allen.

Arrangements have been made to supply the Japanese steamer Selyo Maru with several hundred tons of coal during the stay at the port. The vessel is expected here tomorrow morning and will receive a prompt dispatch for Japan and China ports.

Harbor Officer Carter happened to be present when Rene Blanc, alleged deserter from the U. S. army, applied for a position aboard the American-Hawaiian freighter Arizonan and the man was immediately placed under arrest and is now held awaiting action by the military authorities.

### Bilbester Coming from the Sound.

The British freighter Bilbester, laden with several million feet of lumber, shipped from Puget Sound is expected to arrive at Honolulu tomorrow for the purpose of taking bunker coal. The vessel is bound for Australia.

### Strathendrick Next Arrival.

With 4900 tons of Australian coal to the inter-island Steam Navigation Company, the British freighter Strathendrick is believed nearing the port from Newcastle, N. S. W., and should arrive here about Feb. 24.

### PASSENGERS ARRIVED

Per O. S. S. Sonoma, from Sydney via Pago Pago, Feb. 20.—For Honolulu: Mrs. Henry Healy, Mr. and Mrs. H. T. Smith, Miss Dorothy Smith, C. S. Wallace, Mrs. Cecilia Waller, Mrs. Alice Gawn, Mr. and Mrs. R. T. Haug, Miss G. P. D. Thomas, Miss E. C. Thomas, J. J. Maher, I. D. Maher, Joseph Aurich, Ben. Bevan, Harold Martin. Through, for San Francisco: Mrs. Mabel A. Barkley, Miss Rene Duffy, Mr. and Mrs. John Edwards, Miss Nell Elsing, Miss Marie Emerald, A. F. Evans, Wm. Ford, Miss Cecil Gordon, C. H. Gibson, C. D. Johnson, Miss Alma Lawson, P. C. Levy, Miss J. U. MacLachlan, Mrs. Louis McLane, Mrs. Marie Riley, Frank Robson, Miss E. J. Smith, Miss E. Z. Smyth, R. Scott Skirving, J. Scott Skirving, Mr. and Mrs. Elwood Mead, Elwood Mead, Jr., Miss Katharine Mead, Miss Sue Mead, John Mead, T. J. Whaley, Capt. and Mrs. F. A. Whitehead, L. C. Whitney, Mrs. L. C. Whitney, Walter Schleicher, Wm. Albert, Mrs. Wm. Albert, Buell Allred, Roland Bernasconi, Albert Bletsoe, Miss Maud Bletsoe, Miss Marjorie Bletsoe, Mrs. Isabel Bletsoe, F. L. Bonney, H. C. Bonney, C. ## VESSELS TO AND FROM THE ISLANDS

[Special Cable to Merchants' Exchange]

Friday, Feb. 20.

SEATTLE — Sailed, Feb. 19, U. S. A. T. Dix, for Honolulu.

PORT SAN LUIS — Arrived, Feb. 19, S. S. Lansing, hence via ports, Feb. 3.

Arrived, Feb. 19, ship E. M. Phelps, hence January 31.

YOKOHAMA — Sailed, Feb. 18, S. S. Persia, for Honolulu.

S. S. SEIYO MARU — Arrives from South American ports Monday morning; will coal and probably proceed to Yokohama same day.

S. S. SONOMA — sails for San Francisco at 5 p. m. today.

The weather strips are now classified as long felt wants.

## HEALTH LEAGUE OF 'Y' PLANNING LECTURE SERIES

The Health League of the Honolulu Young Men's Christian Association is one of the most active factors in promoting health education and this year will doubtless prove one of the most successful the league has ever had.

The physical committee of management of the Y. M. C. A. realizes the great possibilities of the Health League and what it means to the community that they have decided to promote many activities, the scope of work being the most far-reaching ever undertaken by this organization.

Honolulu is a branch of the National Health League of the Young Men's Christian Association, the national organization having in the neighborhood of 6000 members, 271,000 young men and boys are participating in physical department privileges of the Young Men's Christian Association of North America.

To have such a large membership in the physical department membership of the Y. M. C. A. of the country represents a great responsibility as well as a great opportunity. They should receive the most scientific health instruction. Not only should these men come into the membership for what they can receive in health instruction but they should also be enlisted in a service of health to others. The Young Men's Christian Association stands not only for service to its members but through its members to every man and boy in the community having a definite need.

The larger altruistic of the movement is shown, however, in the fact that 833 volunteer leaders are carrying the gospel of health to 245,000 additional young men and boys not in the membership at all. It is the desire that this latter type of service shall be extended. The Health League creates and uses the best literature, it furnishes tools to its members with which to work, it will furnish scientific materials and outline logical and workable methods. It commits no one to anything, but it offers opportunity for service.

Owing to several men who are practically donating their services in the interests of the league it is therefore possible for the organization to yield much larger returns than can be estimated by the fees received from memberships and every penny goes directly into the beneficent work of health education.

The Health League after several years of tryout faces its greatest opportunity for substantial growth, both in membership and increased usefulness as a result of increased financial support.

Four thousand members were enrolled last year and these were an exceedingly well-pleased constituency. Many of them are enrolled in Health League Chapters and have conducted extensive campaigns in health education in their respective communities. All have felt that the league kept all its promises. The literature which it was announced would be sent to each member was received by all who joined.

The Health League has this to offer consisting of the following books: "The Efficient Life," by Luther H. Gulick, M. D., a very excellent statement upon health in its relation to efficient living with very practical suggestions. Dr. Gulick in the foreword of his book relates an interesting episode of his father's experience in Hawaii many years ago. The second book is, "Exercise and Health," by Woods Hutchinson, in which he discusses the relation of effects of exercise and some of the best methods for a man in modern times to work out on a rational basis. These two books will surely prove attractive to those who have been members of the Health League in the past. In addition the monthly Health League Bulletin will be continued and in response to suggestions received from those interested in the Health League it will be enlarged and made more attractive and helpful. The usual practice of the Health League in providing special pamphlets on health topics will be continued. The Service Department will be strengthened by the addition of new stereopticon slides on health topics.

In addition to the Health League material which all members receive, there will also be lectures given by Honolulu physicians and others who are interested in this Health League movement. The first lecture was given by Dr. Doremus Scudder in which he advocated outdoor sports, hiking and mountain-climbing.

The next lecture will also be illustrated, the subject being "Alcohol and Efficiency." The date for this lecture will be made known within a few days and no one should miss it for undoubtedly it will be one of the best of the series.

### KIDNAPER OF INCUBATOR BABY RECEIVES PARDON

[By Latest Mail] TOPEKA, Kas.—F. H. Tillotson, a detective, who in 1909 kidnapped Marion Bleakley, the famous "incubator baby," has been pardoned by Governor Hodges. He was under a sentence of from one to five years, but was at liberty on bond pending hearing of an appeal to the United States supreme court.

Marion was born in a St. Louis hospital in 1904. She was so small she was taken to the world's fair and placed in an incubator. Mrs. Barclay adopted her. Mrs. Bleakley, who had believed the child dead, began a fight in the courts for the girl. The United States supreme court ended the contest when it dismissed the case, and Mrs. Bleakley legally gained possession of the child.

## LOCAL AND GENERAL

The Library of Hawaii will be closed all day on Saturday and Monday, February 21 and 23.

The report of Dr. John W. Wadman, formerly superintendent of the Methodist Missions in Hawaii, did not read his report before the annual conference this morning on account of his being unable to attend. It is expected that this report will be presented at the session tomorrow. The session this morning was given over to the presentation and reading of reports for the several ministers delegated to the conference.

### PAYS BIG PRICE FOR RETURN OF TINY DOG

[By Latest Mail] SAN FRANCISCO.—Add \$1000 to the cost of transporting one little Frenchman and one little Pomeranian dog from Paris to San Francisco, and add to this the cost of shipping the little Frenchman back to Paris, and there appears the approximate outlay said to have been borne by Mrs. Francis Carolan in recovering a blue-blooded, blue-eyed miniature canine which she recently lost while on a visit in the French capital.

While Mrs. Carolan recently was stopping at the Hotel Ritz in Paris her Pomeranian pet escaped. She advertised a reward, but there was no response, and she ruefully returned to San Francisco.

Soon after Mrs. Carolan's arrival here she was advised by cable that her lost dog had been found in the public pound in Paris, and she cabled at once to have it sent to her in the care of a special messenger.

One touch of nature may make the whole world kin—but, just the same, your next door neighbor may not stand for a touch.

A Shower Of Gold

Figuratively speaking, a shower of gold has descended upon the people who are entrusting their real estate sales to the Hawaii Hochi.

There is a big demand, among the Japanese for home sites in Honolulu, both as an investment and as a place of permanent residence.

Hawaii Hochi Knows Where

Your Land Can Be Sold

The Hochi charges only a small commission if the sale is made; if it is not made you do not pay a cent. Did you ever hear of a fairer proposition?

You may be sure that the sale will be handled in a manner creditable to you. The Hochi is careful not to depreciate land values in its sales by placing undesirable tenants in any locality.

Let Hawaii Hochi Sell It.

Don't Take It To An Auctioneer

Any article you have, no matter how great or small, will be disposed of in short order if you let the Hawaii Hochi be your salesman.
